for 1996-98 by taking into account the following:

(i) to cover all urban locations with a population of 10,000 and above by including potential of adjoining villages falling within the radius of 15 Kms.

(ii) All urban locations having population of 5000 and above should be surveyed for setting up a distributorship and the viability to be ascertained by taking into account the potential of adjoining villages falling within 15 Kms. radius.

(iii) Cluster of villages within 15 Kms. radius of nucleus villages having a population of 10,000 (ten thousand) and above, to be surveyed for setting up rural distributorships and included in the plan depending upon the viability.

(iv) Villages within 15 Kms radius around towns having population of 1 lakh and above to be surveyed for opening of rural distributorships. While identifying rural locations contiguous to these towns, it should be ensured that adequate number of LPG distributorships exist in such towns so as to avoid marketing of LPG by rural distributorships in urban areas.
